

***Llano Estacado Regional Water Planning Area
Initially Prepared
Regional Water Plan***

Prepared for

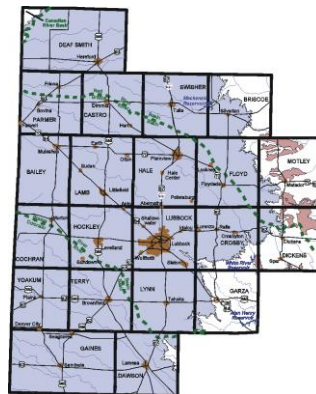

Texas Water Development Board

by

Llano Estacado Regional Water Planning Group

With administration by

High Plains Underground Water Conservation District No. 1

With technical assistance by

September 2010

Table of Contents

<u>Section</u>	<u>Page</u>
Executive Summary	ES-1
1 Planning Area Description	1-1
1.1 Introduction.....	1-1
1.2 Physical Description of the Region, Including the Economy, Water Use, Water Supplies, Water Quality, and Major Entities with Water Resources Management Responsibilities.....	1-4
1.2.1 Description of the Region	1-4
1.2.2 Climate.....	1-6
1.2.3 Physiography, Geology, Soils, and Vegetation	1-7
1.2.4 Natural Resources	1-10
1.3 Population and Demography.....	1-15
1.3.1 Historical and Recent Trends in Population	1-15
1.3.2 Demographic and Socioeconomic Characteristics.....	1-17
1.4 Economy – Major Sectors and Industries	1-21
1.4.1 The Llano Estacado Region’s Economy.....	1-21
1.4.2 Crop Production	1-21
1.4.3 Livestock Production	1-25
1.4.4 Oil and Gas	1-28
1.4.5 Manufacturing.....	1-30
1.4.6 Wholesale Trade	1-30
1.4.7 Retail Trade.....	1-32
1.4.8 Services	1-33
1.4.9 Finance, Insurance, and Real Estate	1-35
1.4.10 Recreation	1-38
1.5 Water Use.....	1-38
1.5.1 Municipal Water Use	1-38
1.5.2 Manufacturing Water Use.....	1-39
1.5.3 Steam-Electric Power Water Use.....	1-40
1.5.4 Mining Water Use.....	1-40
1.5.5 Irrigation Water Use	1-41
1.5.6 Livestock Water Use.....	1-45
1.5.7 Environmental and Recreational Water Use.....	1-45
1.5.8 Major Demand Centers	1-49

Table of Contents (Continued)

<u>Section</u>	<u>Page</u>
1.6 Water Supplies	1-49
1.6.1 Groundwater	1-49
1.6.2 Surface Water.....	1-51
1.6.3 Developed Surface Water Resources.....	1-53
1.6.4 Playa Basins	1-54
1.6.5 Springs	1-57
1.7 Water Quality.....	1-57
1.7.1 Groundwater Quality	1-57
1.7.2 Surface Water Quality.....	1-59
1.7.3 Water Quality Issues.....	1-60
1.8 Threats to Agriculture and Natural Resources.....	1-66
1.8.1 Modification and Reduction of Playas and Corrective Measures	1-66
1.8.2 Playa Enhancements and Protective Measures	1-67
1.8.3 Drought	1-67
1.8.4 Water Quality.....	1-69
1.9 Major Entities with Water Resources Responsibilities.....	1-69
1.9.1 Federal and State.....	1-69
1.9.2 Regional	1-73
1.9.3 Local	1-87
1.10 Existing Water-Related Plans	1-88
1.10.1 State Water Plan.....	1-88
1.10.2 Regional Drought Contingency and Groundwater Management Plans.....	1-89
1.10.3 Local Drought Contingency Plans	1-94
1.10.4 Water Availability Requirements Promulgated by County Commissioners Courts	1-99
1.10.5 Summary of Current Preparations for Drought.....	1-99
1.10.6 Other Relevant Natural Resource Plans.....	1-99
1.11 Water Loss Audits.....	1-101
2 Population and Water Demand Projections.....	2-1
2.1 Population Projections	2-1

<u>Section</u>	<u>Page</u>	
2.2	Municipal Water Demand Projections.....	2-10
2.3	Manufacturing Water Demand Projections	2-12
2.4	Steam-Electric Power Water Demand Projections	2-14
2.5	Mining Water Demand Projections	2-16
2.6	Irrigation Water Demand Projections	2-16
2.7	Livestock Water Demand Projections	2-19
2.8	Total Water Demand Projections.....	2-32
2.9	Water Demand Projections for Counties and Parts of Counties of River Basins of the Llano Estacado Region	2-35
2.10	Water Demand Projections for Wholesale Water Providers in the Llano Estacado Region.....	2-52
	2.10.1 Canadian River Municipal Water Authority.....	2-52
	2.10.2 City of Lubbock	2-54
	2.10.3 Mackenzie Municipal Water Authority	2-55
	2.10.4 White River Municipal Water District.....	2-55
3	Water Supply Analysis	3-1
3.1	Groundwater	3-1
	3.1.1 Ogallala Aquifer.....	3-1
	3.1.2 Seymour Aquifer.....	3-1
	3.1.3 Edwards-Trinity (High Plains) Aquifer	3-1
	3.1.4 Dockum (Santa Rosa) Aquifer.....	3-2
3.2	Surface Water.....	3-2
	3.2.1 Lake Meredith.....	3-3
	3.2.2 Mackenzie Reservoir	3-3
	3.2.3 White River Reservoir	3-3
	3.2.4 Lake Alan Henry.....	3-3
	3.2.5 Surface Water Rights	3-4
3.3	Methodology to Calculate the Water Supplies Available to the Llano Estacado Region and Methodology for Calculating Water Supplies Available for Water User Groups	3-4
3.4	Projected Water Supplies Available to the Llano Estacado Region... ..	3-5
4	Identification, Evaluation and Selection of Water Management Strategies Based on Needs	4-1

<u>Section</u>	<u>Page</u>
4.1 Water Needs Projections by Water User Group	4-1
4.2 Water Needs Projections for Wholesale Water Providers	4-100
4.3 Socioeconomic Impacts of Not Meeting Projected Water Needs (IN PROGRESS).....	4-102
4.4 Water Management Strategies for the Llano Estacado Region ...	4-107
4.4.1 Water Conservation	4-107
4.4.2 Water Supply from Nearby Groundwater Sources for Cities Projected to Need Additional Municipal Supply.....	4-146
4.4.3 Water Supply from Lake Alan Henry, Groundwater Sources, and Reclaimed Water	4-174
4.4.3.1 Lake Alan Henry Water District	4-174
4.4.3.2 Lake Alan Henry Supply to Lubbock.....	4-179
4.4.3.3 Lubbock Jim Bertram Lake System – Lake 7.....	4-184
4.4.3.4 Lubbock North Fork Diversion Operation.....	4-199
4.4.3.5 Post Reservoir—Delivered to Lake Alan Henry Pipeline	4-214
4.4.3.6 Lubbock Brackish Groundwater Desalination.....	4-232
4.4.3.7 White River Municipal Water District—Reclaimed Water	4-235
4.4.3.8 White River Municipal Water District—Local Groundwater	4-239
4.4.3.9 Confined Animal Feeding WMS – Local Groundwater...	4-241
4.4.3.10 Canadian River Municipal Water Authority Members – Local Groundwater.....	4-248
4.4.4 Region-Wide Water Management Strategies.....	4-256
4.5 Llano Estacado Regional Water Plan	4-302
4.5.1 Bailey County Water Supply Plan	4-306
4.5.2 Briscoe County Water Supply Plan	4-310
4.5.3 Castro County Water Supply Plan	4-314
4.5.4 Cochran County Water Supply Plan.....	4-320
4.5.5 Crosby County Water Supply Plan.....	4-324
4.5.6 Dawson County Water Supply Plan	4-330
4.5.7 Deaf Smith County Water Supply Plan	4-334
4.5.8 Dickens County Water Supply Plan	4-338
4.5.9 Floyd County Water Supply Plan	4-342
4.5.10 Gaines County Water Supply Plan	4-346
4.5.11 Garza County Water Supply Plan.....	4-348
4.5.12 Hale County Water Supply Plan.....	4-352
4.5.13 Hockley County Water Supply Plan.....	4-358
4.5.14 Lamb County Water Supply Plan	4-366
4.5.15 Lubbock County Water Supply Plan	4-370
4.5.16 Lynn County Water Supply Plan	4-380
4.5.17 Motley County Water Supply Plan.....	4-384
4.5.18 Parmer County Water Supply Plan.....	4-388

<u>Section</u>	<u>Page</u>
4.5.19 Swisher County Water Supply Plan.....	4-394
4.5.20 Terry County Water Supply Plan.....	4-398
4.5.21 Yoakum County Water Supply Plan.....	4-402
4.5.22 Water Supply Plans for Wholesale Water Providers	4-407
4.5.23 Region-Wide Water Management Strategies Included in the Llano Estacado Water Plan	4-412
4.5.24 Public Education	4-416
4.5.25 Drought and Drought Response.....	4-418
 5	
Impacts of Water Management Strategies on Key Parameters of Water Quality and Impacts of Moving Water From Rural and Agricultural Areas	5-1
5.1 Impacts of Water Management Strategies on Key Parameters of Water Quality.....	5-1
5.2 Impacts of Moving Water from Rural and Agricultural Areas.....	5-3
5.3 Impacts of Limited Water Quantity Upon Irrigated Agriculture....	5-4
 6	
Consolidated Water Conservation and Drought Management Recommendations for the Regional Water Plan	6-1
6.1 Municipal Water Conservation (See Section 4.4.1.1)	6-1
6.1.1 Municipal Water Conservation Water Management Strategy.....	6-1
6.1.2 Survey of Implementation of Municipal Water Conservation Water Management Strategies in Llano Estacado Water Planning Region...	6-1
6.2 Irrigation Water Conservation (See Section 4.4.1.2)	6-6
6.2.1 Irrigation Water Conservation Water Management Strategy.....	6-6
6.2.2 Extent of Implementation of Irrigation Water Conservation Water Management Strategies in Llano Estacado Region...	6-7
6.3 Drought and Drought Response.....	6-9
 7	
Consistency with Long-Term Protection of the State's Water Resources, Agricultural Resources and Natural Resources.....	7-1
 8	
Unique Stream Segments/Reservoir Sites/Legislative Recommendations..	8-1
8.1 Identification of Unique Ecological Stream Segments and Reservoir Sites.....	8-1
8.2 Legislative and Administrative Recommendations	8-1
 9	
Report to the Legislature on Infrastructure Financing.....	9-1

<u>Section</u>	<u>Page</u>
10 Adoption of Plan.....	10-1
10.1 Public Involvement Program	10-1
10.2 Data Gathering and Coordination with Water Supply and Water Conservation Entities	10-5
10.3 Informational Mailouts to Water User Groups and Supply Entities	10-5
10.4 Llano Estacado Regional Water Planning Group Meetings	10-6
10.5 Coordination with Other Regions and Counties of Region O	10-7
10.6 Texas Water Development Board Comments for Llano Estacado Region (Region O) Regional Water Planning Group Initially Prepared Plan, Contract No. 904830874 and LERWPG Responses	10-7
10.7 Public Comments and LERWPG Responses.....	10-12
10.8 Final Plan Adoption.....	10-16

Appendices

Appendix A – Threatened, Endangered, and Rare Species of the Llano Estacado Region

Appendix B – Springs and Seeps of the Llano Estacado Water Planning Region

Appendix C – Socioeconomic Impacts of Unmet Water Needs in the Llano Estacado Water
Planning Area

Appendix D – Example Municipal Water Conservation and Drought Contingency Plan

Appendix E – Derivation of Volume of Water in Storage and Annual Water Supply

Appendix F – Surface Water Rights Information

Appendix G – Detailed Demand, Supply, and Needs Analysis for Wholesale Water Providers

Appendix H – IFR Questionnaire

Appendix I – Detailed IFR Responses

Appendix J-- Municipal Water User Groups Water Supply and Aquifer Information

Appendix K-- Water Supply Estimation for Water Management Strategy for CAFOs

Appendix L-- Water Supply Estimation for Water Management Strategy for CRMWA

Appendix M—Summary of Phase I 2011 Regional Water Planning Study

List of Figures

<u>Figure</u>		<u>Page</u>
1-1	Map of Planning Region	1-5
1-2	Map of Llano Estacado Region – Major Aquifers and River Basin Boundaries	1-11
1-3	Map of Llano Estacado Region – Minor Aquifers and River Basin Boundaries	1-12
1-4	Average Annual Precipitation for the Llano Estacado Region (Inches per Year; 1945 to 1997)	1-13
1-5	Population Growth (1900 to 2000)	1-16
1-6	Location of Water-Oriented Recreational Facilities	1-48
1-7	Underground Water Conservation District Boundaries	1-75
2-1	Summary of Llano Estacado Region’s Projected Population	2-4
2-2	Projected Per Capita Water Use and Municipal Water Demand (1990 to 2060)	2-12
2-3	Projections of Manufacturing, Steam-Electric, and Mining Water Demands (1990 to 2060)	2-14
2-4	Projections of Irrigation Water Demands (1990 to 2060)	2-19
2-5	Projections of Beef Feedlot and All Other Livestock Water Demands (1990 to 2060)	2-21
2-6	Total Water Demand Projections (1990 to 2060)	2-34
3-1	Projected Water Supply for the Llano Estacado Water Planning Region	3-13
3-2	Projected Quantity of Water in Storage—Ogallala Aquifer	3-16
4.4-1	Projected Irrigation Water Demand and Supply – Region O	4-129
4.4-2	Projected Irrigation Water Demand, Supply, and Supply With Irrigation Water Conservation	4-145
4.4-3	Cities Projected to Need Additional Water Supply	4-148

List of Figures (Continued)

4.4-4	Lake Alan Henry Water Supply District Project	4-175
4.4-5	Lake Alan Henry to Lubbock Pipeline	4-181
4.4-6	Lubbock Jim Bertram Lake System (JBLS) Expansion	4-186
4.4-7	Jim Bertram Lake System (JBLS) Expansion Reservoir Storage Considerations	4-188
4.4-8	Jim Bertram Lake System (JBLS) Expansion Streamflow Comparisons	4-189
4.4-9	Lubbock North Fork Diversion Operation.....	4-200
4.4-10	Lubbock North Fork Diversion Operation Storage Considerations	4-204
4.4-11	Lubbock North Fork Diversion Operation Streamflow Comparisons	4-205
4.4-12	Post Reservoir and Pipeline.....	4-216
4.4-13	Post Reservoir Storage Considerations.....	4-217
4.4-14	Post Reservoir Streamflow Comparisons – Below Post Reservoir.....	4-218
4.4-15	CRMWA Member Cities and Pipeline.....	4-249
4.4-16	Rainfall Distribution.....	4-262
4.4-17	Santa Rosa Formation of the Dockum Aquifer.....	4-280

List of Tables

<u>Table</u>		<u>Page</u>
1-1	Current Members and Representation of the Llano Estacado Regional Water Planning Group.....	1-2
1-2	Climatological Data for Llano Estacado Region	1-6
1-3	Population Growth (1900 to 2000)	1-15
1-4	Major Cities and Population (1990 and 2000).....	1-17
1-5	County Population and Area.....	1-18
1-6	Age Distribution of the Population in 2000.....	1-19
1-7	Summary of Selected Socioeconomic Indicators (2000 and 2003)	1-20
1-8	Crop Production Data (2007).....	1-23
1-9	Livestock Numbers (2007)	1-27
1-10	Oil and Gas Production (2008)	1-29
1-11	Manufacturing Activity (2002).....	1-31
1-12	Wholesale Trade (2002).....	1-32
1-13	Retail Trade (2007).....	1-34
1-14	Services (2002)	1-36
1-15	Finance, Insurance, and Real Estate (1997).....	1-37
1-16	List of Irrigation Systems and Efficiency	1-43
1-17	Areas Identified as Historically Important for Waterfowl and Sandhill Cranes	1-47
1-18	Number and Total Area of Playas in Planning Area.....	1-55
1-19	Summary of High Plains UWCD's Activities and Programs	1-76

List of Tables (Continued)

1-21	Summary of Mesa UWCD’s Activities and Programs 1-79
1-22	Summary of South Plains UWCD’s Activities and Programs 1-80
1-23	Summary of Llano Estacado UWCD’s Activities and Programs 1-81
1-24	Summary of Garza County Underground and Freshwater Conservation District’s Activities and Programs..... 1-82
1-25	Summary Canadian River Municipal Water Authority’s Programs and Activities 1-84
1-26	Summary of White River Municipal Water District’s Programs and Activities 1-85
1-27	Summary of Mackenzie Municipal Water Authority’s Programs and Activities 1-85
1-28	Summary of Brazos River Authority’s Programs and Activities..... 1-86
1-29	Summary of Red River Authority’s Programs and Activities 1-87
1-30	Water Loss Audit – 2005..... 1-104
2-1	List of Counties (Location by River Basin) 2-2
2-2	Population Projections (Individual Counties with River Basin Summaries) 2-3
2-3	Population Projections (River Basins, Counties, and Cities) 2-5
2-4	Municipal Water Demand Projections (Individual Counties with River Basin Summaries) 2-11
2-5	Manufacturing Water Demand Projections (Individual Counties with River Basin Summaries) 2-13

List of Tables (Continued)

<u>Table</u>		<u>Page</u>
2-6	Steam-Electric Power Water Demand Projections (Individual Counties with River Basin Summaries)	2-15
2-7	Mining Water Demand Projections (Individual Counties with River Basin Summaries)	2-17
2-8	Irrigation Water Demand Projections (Individual Counties with River Basin Summaries)	2-18
2-9	Beef Cattle Feedlot Water Demand Projections (Individual Counties with River Basin Summaries)	2-20
2-10	Swine Feedlot Water Demand Projections (Individual Counties with River Basin Summaries)	2-22
2-11	Dairy Water Demand Projections (Individual Counties with River Basin Summaries)	2-24
2-12	Horse Water Demand Projections (Individual Counties with River Basin Summaries)	2-25
2-13	Range Beef Cows/Bulls Water Demand Projections (Individual Counties with River Basin Summaries)	2-26
2-14	Range Beef Stocker Cattle Water Demand Projections (Individual Counties with River Basin Summaries)	2-27
2-15	Sheep and Goats Water Demand Projections (Individual Counties with River Basin Summaries)	2-28
2-16	Poultry Water Demand Projections (Individual Counties with River Basin Summaries)	2-29
2-17	Total Livestock Water Demand Projections (Individual Counties with River Basin Summaries)	2-30
2-18	All Livestock Other than Beef Feedlot Livestock Water Demand Projections (Individual Counties with River Basin Summaries)	2-31
2-19	Total Water Demand Projections (Individual Counties with River Basin Summaries)	2-33
2-20	Composition of Total Water Use (2000, 2030, and 2060).....	2-34

List of Tables (Continued)

<u>Table</u>		<u>Page</u>
2-21	Total Water Demand Projections (River Basins, Counties, and Cities).....	2-37
2-22	Water Demand Projections for Wholesale Water Providers.....	2-53
3-1	Water Supply Projections (Individual Counties with River Basin Summaries)	3-7
3-2	Projected Quantity of Water in Storage (Individual Counties with River Basin Summaries)	3-15
4-1	Projected Water Demands, Supplies, and Needs Bailey County	4-3
4-2	Projected Water Demands, Supplies and Needs Briscoe County.....	4-6
4-3	Projected Water Demands, Supplies and Needs Castro County	4-9
4-4	Projected Water Demands, Supplies and Needs Cochran County	4-14
4-5	Projected Water Demands, Supplies, and Needs Crosby County	4-19
4-6	Projected Water Demands, Supplies and Needs Dawson County.....	4-24
4-7	Projected Water Demands, Supplies, and Needs Deaf Smith County	4-29
4-8	Projected Water Demands, Supplies and Needs Dickens County.....	4-34
4-9	Projected Water Demands, Supplies, and Needs Floyd County	4-39
4-10	Projected Water Demands, Supplies and Needs Gaines County.....	4-44

List of Tables (Continued)

<u>Table</u>	<u>Page</u>
4-11 Projected Water Demands, Supplies, and Needs Garza County	4-47
4-12 Projected Water Demands, Supplies and Needs Hale County	4-52
4-13 Projected Water Demands, Supplies, and Needs Hockley County	4-57
4-14 Projected Water Demands, Supplies and Needs Lamb County	4-62
4-15 Projected Water Demands, Supplies, and Needs Lubbock County.....	4-66
4-16 Projected Water Demands, Supplies and Needs Lynn County	4-70
4-17 Projected Water Demands, Supplies, and Needs Motley County	4-75
4-18 Projected Water Demands, Supplies and Needs Parmer County	4-78
4-19 Projected Water Demands, Supplies, and Needs Swisher County.....	4-83
4-20 Projected Water Demands, Supplies and Needs Terry County	4-88
4-21 Projected Water Demands, Supplies, and Needs Yoakum County	4-93
4-22 Projected Water Demands, Supplies and Needs River Basin and Llano Estacado Region Summaries	4-96
4-23 Projected Water Demands, Supplies and Needs for Wholesale Water Providers.....	4-101
4.4-1 Standards for Plumbing Fixtures	4-108
4.4-2 Water Conservation Potentials of Low-Flow Plumbing Fixtures.....	4-109

List of Tables (Continued)

<u>Table</u>	<u>Page</u>
4.4-3	Municipal Water User Groups Projected Per Capita Water Use with Low Flow Plumbing Fixtures 4-112
4.4-4	Municipal Water Use Groups Projected Per Capita Water Use with Low Flow Plumbing Fixtures and Regional Planning Goal to Reduce Per Capita Water Use by One Percent Per Year..... 4-114
4.4-5	Additional Municipal Water User Group Water Conservation Needed to Meet Goals of Reducing Per Capita Water Use to Year 2000 Regional Average of 172 gpcd..... 4-116
4.4-6	Water Conservation Potentials of Plumbing Retrofit..... 4-118
4.4-7	Water Conservation Potentials of Plumbing Retrofit, Clothes Washer Retrofit, and Lawn Watering 4-121
4.4-8	Cost of Plumbing Fixture and Clothes Washer Retrofit and Lawn Watering Water Conservation 4-123
4.4-9	Projected Irrigation Water Demands, Irrigation Water Supplies, and Irrigation Water Needs (Shortages)..... 4-126
4.4-10	Irrigated Acreages and Irrigation Water Use — 1990 to 2000..... 4-135
4.4-11	Total acres Irrigated, acres Irrigated Using Center Pivots, and Potential Acres to which Center Pivots can be Added..... 4-137
4.4-12	Baseline Irrigated Acreage, Acres Irrigated Using Center Pivots, And Estimated Number of Acres to which Center Pivots could Be Installed..... 4-139
4.4-13A	Estimates of Irrigation Water Conservation Potentials..... 4-140
4.4-13B	Estimates of Projected Irrigation Water Conservation Potentials and Cost Per Acre-Foot..... 4-141
4.4-13C	Projected Irrigation Water Needs (Shortages) with Irrigation Water Conservation 4-142

List of Tables (Continued)

<u>Table</u>	<u>Page</u>	
4.4-14	Representative Costs.....	4-149
4.4-15	City of Abernathy Projected Water Needs and Water Management Strategy	4-150
4.4-16	City of Anton Projected Water Needs and Water Management Strategy	4-151
4.4-17	City of Bovina Projected Water Needs and Water Management Strategy	4-152
4.4-18	City of Denver City Projected Water Needs and Water Management Strategy	4-153
4.4-19	City of Dimmitt Projected Water Needs and Water Management Strategy	4-154
4.4-20	City of Earth Projected Water Needs and Water Management Strategy	4-155
4.4-21	City of Farwell Projected Water Needs and Water Management Strategy	4-156
4.4-22	City of Friona Projected Water Needs and Water Management Strategy	4-157
4.4-23	City of Hart Projected Water Needs and Water Management Strategy	4-158
4.4-24	City of Idalou Projected Water Needs and Water Management Strategy	4-159
4.4-25	City of Lockney Projected Water Needs and Water Management Strategy	4-160
4.4-26	Cities of Lorenzo and Ralls Projected Water Needs and Water Management Strategy	4-161
4.4-27	City of Morton Projected Water Needs and Water Management Strategy	4-162
4.4-28	City of New Deal Projected Water Needs and Water Management Strategy	4-163

List of Tables (Continued)

<u>Table</u>	<u>Page</u>
4.4-29 City of Petersburg Projected Water Needs and Water Management Strategy	4-164
4.4-30 City of Plains Projected Water Needs and Water Management Strategy	4-165
4.4-31 City of Quitaque Projected Water Needs and Water Management Strategy	4-166
4.4-32 City of Ropesville Projected Water Needs and Water Management Strategy.....	4-167
4.4-33 City of Shallowater Projected Water Needs and Water Management Strategy	4-168
4.4-34 City of Smyer Projected Water Needs and Water Management Strategy	4-169
4.4-35 City of Sundown Projected Water Needs and Water Management Strategy	4-170
4.4-36 City of Tulia Projected Water Needs and Water Management Strategy	4-171
4.4-37 City of Wilson Projected Water Needs and Water Management Strategy	4-172
4.4-38 City of Wolfforth Projected Water Needs and Water Management Strategy	4-173
4.4-39 Potential Population and Water Demand – Lake Alan Henry Water Supply District System.....	4-176
4.4-40 Cost Estimate for Lake Alan Henry Water Supply District Project	4-178
4.4-41 Cost Estimate Summary for Lake Alan Henry Pipeline	4-182
4.4-42 Comparison of Lake Alan Henry Supply to City of Lubbock to Plan Development Criteria.....	4-183
4.4-43 Daily Natural Streamflow Statistics Lubbock Jim Bertram Lake System (JBLS) Expansion – Lake 7.....	4-187

List of Tables (Continued)

<u>Table</u>	<u>Page</u>	
4.4-44	Potentially Occurring Species that are Rare or Federal-and-State Listed at the Jim Bertram Lake System (JBS) Expansion – Lake 7.....	4-193
4.4-45	Archeological Sites on Record for Lake 7.....	4-195
4.4-46	Cost Estimate Summary for Lubbock Jim Bertram Lake System (JBS) Expansion – Lake 7.....	4-197
4.4-47	Comparison of Lubbock Jim Bertram Lake System (JBS) Expansion -- Lake 7 to Plan Development Criteria.....	4-198
4.4-48	Daily Natural Streamflow Statistics Lubbock North Fork Diversion Operation.....	4-201
4.4-49	Median Monthly Streamflow Lubbock North Fork Diversion Operation.....	4-203
4.4-50	Potentially Occurring Species that are Rare or Federal-and-State Listed in Garza County near the Lubbock North Fork Diversion Operation.....	4-209
4.4-51	Cost Estimate Summary for Lubbock North Fork Diversion Operation.....	4-212
4.4-52	Comparison of Lubbock North Fork Diversion Operation to Plan Development Criteria.....	4-213
4.4-53	Daily Natural Streamflow Statistics Post Reservoir	4-215
4.4-54	Rare, Threatened, and Endangered Species of Potential Occurrence In Garza County, Texas	4-223
4.4-55	Cost Estimate summary for Post Reservoir – Delivered through LAH Pipeline	4-230
4.4-56	Comparison of Post Reservoir – Delivered through LAH Pipeline To Plan Development Criteria.....	4-231

List of Tables (Continued)

<u>Table</u>	<u>Page</u>	
4.4-57	Cost Estimate Summary for Lubbock Brackish Groundwater Desalination.....	4-233
4.4-58	Cost Estimate Summary for White River Municipal Water District—Reclaimed Water.....	4-237
4.4-59	Cost Estimate Summary for White River Municipal Water District—Local Groundwater	4-240
4.4-60	Projected Water Demands for Feedyards and Dairies.....	4-242
4.4-61	Projected Water Needs (Shortages) for Feedyards and Dairies.....	2-242
4.4-62	Cost Estimates—Water Management Strategy Located Five Miles From Feedyards and Dairies with Needs (Shortages).....	4-246
4.4-63	Cost Estimates—Water Management Strategy Located Ten Miles From Feedyards and Dairies with Needs (Shortages).....	4-247
4.4-64	Selected Canadian River Municipal Water Authority Members.....	4-248
4.4-65	Estimated Cost for Well Field Number 1.....	4-252
4.4-66	Estimated Cost for Well Field Number 2 (11,000 adft/yr).....	4-253
4.4-67	Estimated Cost for Well Field Number 2A (4,500 adft/yr).....	4-254
4.4-68	Estimated Cost for Well Field Number 3.....	4-255
4.4-69	Approximate Range and Brush-Covered Areas.....	4-265
4.4-70	Densities and Seasonal Water Use for Common Plant Species.....	4-268
4.4-71	Comparison of Water That Could be Collected in White River Reservoir for Varying Degrees of Brush Control	4-270
4.4-72	Chemical Agents for Brush Control	4-271
4.4-73	Initial and Interim Costs for Various Brush Control Methods	4-274
4.4-74	Present Worth and Uniform Annual Costs for 30-Year Brush Control Projects under Varying Brush Conditions.....	4-274

List of Tables (Continued)

<u>Table</u>	<u>Page</u>
4.4-75	Estimated Cost of Brush Control 4-276
4.4-76	Evaluations of Brush Control to Enhance Water Supply Yield..... 4-278
4.4-77	Municipal Use Desalt Plants in Texas 4-286
4.4-78	Engineering Assumptions for Brackish Groundwater Desalination..... 4-290
4.4-79	Estimated Costs for Brackish Well (Raw Water Production Parmer-Castro-Lamb County Area 4-291
4.4-80	Estimated Costs for Evaporation Pond Concentrate Disposal From RO Desalination of Brackish Groundwater of 3,000 mg/L Of TDS for 0.2 MGD, 1 MGD, and 3 MGD Sized Desalination Plants..... 4-292
4.4-81	Estimated Costs for Evaporation Pond Concentrate Disposal From RO Desalination of Brackish Groundwater of 5,000 mg/L Of TDS for 0.2 MGD, 1 MGD, and 3 MGD Sized Desalination Plants..... 4-293
4.4-82	Estimated costs for Deep Well Injection of Concentrate from RO Desalination of Brackish Groundwater of 3,000 mg/L and 5,000 mg/L of TDS for 3 MGD Size Desalination Plant..... 4-294
4.4-83	Cost Estimate for Brackish Groundwater Desalination (3,000 mg/L TDS)..... 4-295
4.4-84	Cost Estimate for Brackish Groundwater Desalination (5,000 mg/L TDS)..... 4-296
4.4-85	Evaluation of Brackish Groundwater Desalination 4-298
4.5-1	Bailey County Surplus/Shortage..... 4-306
4.5-2	Recommended Plan Costs by Decade for the City of Muleshoe 4-307
4.5-3	Recommended Plan Costs by Decade for Irrigation – Bailey County..... 4-308
4.5-4	Briscoe County Surplus/Shortage 4-310
4.5-5A	Recommended Plan Costs by Decade for the City of Silverton..... 4-311
4.5-5	Recommended Plan Costs by Decade for Irrigation – Briscoe County.... 4-314
